

## "THE LUSOPHONE STRATEGY FOR SURVIVING AND THRIVING IN THE ERA OF LOW OIL PRICES"

The oil and gas industry in the Portuguese-speaking (Lusophone) regions is a mosaic of very different realities. From the established oil producers like Angola and Brazil, to an emerging natural gas giant as Mozambique, and the frontier play of Portugal, the Lusophone oil & gas world is very diverse. This event will help us understand what strategies these countries are following to survive and thrive in the current era of low oil prices.
