## AEROSPACE

### ANAC HAS LAUNCHED A CONSULTATION ON THE LEGAL REGIME FOR MANDATORY REGISTRATION OF RPAS

The purpose of the bill is to define a legal framework disciplining the usage of Remotely Piloted Aircraft Systems (RPAs), including legal mechanisms towards control and supervision.

Among the various measures included in the proposed bill are:

- (i) the creation of a renewable registry identifying the owner and the RPAS;
- (ii) the mandatory subscription of objective civil liability insurance;
- (iii) mandatory reporting of sales and property transfers to ANAC; and
- (iv) a specific misdemeanor liability regime, with fines ranging a possible maximum 7.500 € (seven thousand, five hundred euros).

The [public consultation](#) now launched is aimed at obtaining all interested stakeholders' input and will be active until 10 of October. Contributions may be submitted by e-mail to [consultapublica.drones@anac.pt](mailto:consultapublica.drones@anac.pt).
