ANPG PRESS RELEASE: LOCAL  
CONTENT REQUIREMENTS  
AND SERVICE LIST

VdA EXPERTISE

October 2021

Further to the approval back in October 2020 of the new legal framework for the promotion of local content in the oil and gas industry, enacted by means of Presidential Decree 271/20, of 20 October 2020 [\[click here\]](#), the Angolan Petroleum Agency (ANPG) has just released the lists of the goods and services falling under the exclusivity and preference regimes.

The list – which contents can be found [here](#) – is aimed at fostering the participation of Angolan Companies – i.e., companies incorporated under the laws of Angola and whose share capital is wholly (100%) owned by national individuals or companies – and, Angolan Incorporated Companies – i.e., companies incorporated under the laws of Angola, irrespective of the nationality of its shareholding – in the carrying-out of oil operations.

The list brings-in a number of novelties and may potentially imply some restructurings on existing local set-ups.
