### Promotional literature

Please note that no individual or organisation may display or distribute publicity material or other printed matter during the Conference, unless by prior arrangement with the IBA. Organisations and companies wishing to discuss promotional opportunities should contact the IBA Sponsorship Department at [sponsorship@int-bar.org](mailto:sponsorship@int-bar.org).

If any deductions or withholdings are required by law to be made from any fees payable to us by you under the terms contained in this 'Information' section you shall pay such sum as will, after the deduction or withholding has been made, leave us with the same amount as we would have been entitled to receive in the absence of any such requirement to make a deduction or withholding.

### Conference sell-outs

The IBA places its conferences in venues of a suitable size for each event; however, there are times when our conferences may sell out. Should this happen, prospective delegates will be informed and a waiting list will operate. The waiting list will function on a 'first come, first served' basis, subject to receiving registered delegate cancellations. The waiting list for a conference will close once it has reached ten per cent of the conference venue capacity, as it is very unlikely a place will become available. The IBA will not be liable for any travel or accommodation expenses incurred by an individual who travels to a conference without a confirmed place at the event.

Provided you have cancelled your registration to attend an IBA Conference in accordance with the terms of the 'cancellation of registration' clause included in the 'Information' section of the relevant Conference programme, you must then confirm to us in writing at the IBA office as soon as possible, but in no event later than one year (12 calendar months) from the date of any such Conference, all necessary details to enable any reimbursement owed to you to be paid. We regret that no refunds will be made after the date that is one year (12 calendar months) after the date of the relevant Conference.

### Travel arrangements and visas

Participants are responsible for making their own travel arrangements. It is recommended that you check your visa requirements with your local embassy or consulate. **We are unable to dispatch visa invitation letters to support your visa application prior to receipt of your registration form and full payment of registration fees.**

# International Bar Association

## the global voice of the legal profession

The International Bar Association (IBA), established in 1947, is the world's leading organisation of international legal practitioners, bar associations, law firms and law societies.

The IBA influences the development of international law reform and shapes the future of the legal profession throughout the world. It has a membership of more than 80,000 individual lawyers and more than 190 bar associations and law societies spanning over 170 countries.

Inspired by the vision of the United Nations, the IBA was founded in the same spirit, just before the Universal Declaration of Human Rights was proclaimed in 1948.

The IBA covers all practice areas and professional interests, providing members with access to leading experts and up-to-date information, enabling them to better represent their clients' interests.

Through its various committees, fora and task forces, the IBA facilitates the exchange of information and views among its members as to laws, practices and professional responsibilities relating to the practice of law around the globe.

### **IBA Communications Law Committee**

The Communications Law Committee is a leading global forum for legal practitioners with specialist expertise or interest in the communications sector.

The Committee offers members access to a worldwide network of leading practitioners, in-house counsel and regulators active in digital, communications and media markets.

We encourage the sharing of sectoral expertise through regular publication of articles, periodic issues of our technical journal, the annual committee conference hosted jointly with IBA Antitrust Section, and specialised sessions at the IBA Annual Conference.

The scope of the Committee's work covers network, service, and content-related developments across all delivery platforms. This provides members with access to practical global perspectives on the array of technological, commercial and policy issues which confront communications lawyers, their companies and clients.

### **IBA Intellectual Property and Entertainment Law Committee**

The main areas are patents, trademarks, copyright, trade secrets and unfair competition. Allied to these are a number of related areas including data protection, database protection, privacy,

design rights, domain names and the like.

In the entertainment law area, the key focus is on the creation, provision and delivery of content in relation to print, films, broadcasts, cable programmes, musical works and sound recordings. There is also involvement with media law including defamation and privacy and authors' rights in a more general sense.

### **IBA Technology Law Committee**

The Technology Law Committee of the International Bar Association brings together lawyers practising aspects of the law particularly relevant to modern technologies. They have in common that they deal with developing bodies of law coming to grips with the new questions posed by new technologies. The mandate of the Technology Law Committee is broad and includes virtually any kind of technology.

At present, we have eight subcommittees with the following areas of focus:

- The Artificial Intelligence and Robotics Subcommittee provides guidance on new technologies and their potential implications.
- The focus of the Outsourcing and Shared Services Subcommittee is on outsourcing service and supply agreements in all their aspects.
- The Internet Business Subcommittee focuses broadly on e-commerce and other internet issues.
- The User Generated Content Subcommittee focuses on the user generated content issues that are challenging the internet and entertainment industries.
- The Cybersecurity and Surveillance Subcommittee focuses on technologies that may threaten the privacy and security of individuals, ranging from satellite surveillance to smart cards.
