

Competition Rules and Cases in the Energy Sector

 **Budapest, Hungary**

 **10-12 December 2019**

Seminar objectives

This Workshop will provide participants with an opportunity to explore the common competition issues that can be found in the energy sector. The energy sector has a number of unique characteristics and specificities that need to be considered when analysing the way in which competition takes place in the sector. The goal of the Workshop is to enable competition officials from the Region to become more familiar with international practices relating to cartels, abuse of dominance, mergers and competition advocacy in this fundamental sector of modern economies.
